

# Alcoa® One-Piece Hub Cover System with Retention Nuts

## New! Improved Retention. Fits More Applications.

Re-engineered from the leader in wheel and wheel accessories. This new one-piece design improves on our classic system to meet the needs of today's trucks. The improved retention nut system ensures proper fitment and the taller lug nut towers accommodate a wider variety of applications including wide base wheels, disc brakes, and other new truck trend variations. Offered in both front and rear applications, each system is designed to fit 10-hole hub piloted wheels (285.75mm, 22.5" and 24.5"). Also available in matching menacing matte black for Alcoa Dura-Black™ Wheels for a complete blacked out look.

- Easy installation
- Secure retention system
- Fits more applications
- On-off removal for inspection
- 2-year warranty
