

AERODYNAMIC STEER COVER **MULTI-PIECE CLAMP-ON**

Alcoa® Aerodynamic Steer Cover kits are the industry's trusted portfolio of high quality and durable cover systems. An industry leading design that provides fuel savings, durable construction for secure on-off inspections and unrivaled finishes for long lasting quality appearance and a bold personalized look.

AERODYNAMIC STEER COVER MULTI-PIECE CLAMP-ON

10 X 285.75MM WHEELS

»» Aerodynamic Solution

- Patent pending aerodynamic design, engineered to push air away from tire/wheel and vehicle.
- Backed by rigorous testing, it provides proven savings of up to 39 gallons of fuel per year*.

»» Quality Engineering & Design

- Engineered with ABS plastic to protect from deforming at high temperatures due to brake heat.

»» Advanced Finishes

- Superior chrome plating meets original equipment manufacturers (OEM) requirements for salt spray and environment corrosion.
- For a bold look, matte black finish option is color matched to Alcoa® Dura-Black™ wheels.

»» Secure Attachment System

- Alcoa® Hug-A-Lug® clamp-on nut covers accommodate no stud standoff and mount directly on the lug nut.
