

**Ensure your wheels match
the quality and passion of
your dually truck.**

Alcoa® Forged Aluminum Wheels
Ram 4500/5500

Follow Us:

Look Good

- Never rusts
- Sleek design for premium appearance
- Eliminate the need for simulators

Get Stronger

- Aluminum wheels are 5x stronger than steel

Drive Smarter

- Run cooler to increase brake and tire life & performance
- Improved un-sprung weight, better ride and handling
- Fits all six positions with no change to mounting hardware
- Backed by a 5-year warranty
- High resale value

Lighter is Better

- Save 156 lbs converting to aluminum
- More payload
- Increase fuel economy

Less Maintenance

- Does not require painting
- Save time & money

Easy Tire Rotation

- Easy when all six positions are aluminum (in High Polish finish only)
- No need to dismount tires

Stop the Rust!

Steel Wheels

- Always rust
- Cause corrosion-related maintenance issues
- Heavier wheels cause higher fuel cost and lower towing capacity

Simulators

- Hide unknown maintenance issues, including rust
- Hold in heat
- Ongoing replacement cost of \$195-\$200 per simulator

Put An End To Refinishing Or Refurbishing

- Eliminate reoccurring and time intensive maintenance
- Save \$30-\$50 per wheel every upkeep
